WTVE UPDATE

Hallmark Movies and Mysteries has recently been added to the WTVE lineup.

Watch TV Everywhere is available to NVC cable customers. WTVE is a FREE service that allows you to view your favorite TV programming on devices other than a TV – such as a tablet, laptop or PC with an Internet signal. With NVC's UNLIMITED DATA PLAN, you can also stream shows on your smart phone all day long with NO data overage charges!

Each TV network makes their own decision about what to make available on WTVE.

We are currently working with many program providers to add to our lineup and will launch new networks on WTVE as they become available to us. Keep in mind that network availability is dependent on your television package subscription. For example, you must be a Science Channel subscriber in order to watch Science Channel's WTVE programs.

To register, go to www.watchtveverywhere.com. From the drop down, select NVC as your provider. Click on register and complete the information requested, including your NVC account number (found on your bill) and an email address.

After registering, check the email address you provided for a WTVE activation link. Click on the link to complete the registration process. Sit back and enjoy your new way to watch TV! Please call 725-1000 with any questions.

TRAVEL APPS FOR YOUR BEST VACATION

As summer comes closer to an end, we wanted to share some of our favorite travel apps and possibly a few you haven't heard of.

TVFoodMaps is a free app that maps the restaurants and diners featured on food and travel shows like "Diners, Drive-Ins and Dives," "Man vs. Food," "Bizarre Foods," or "Parts Unknown." The app tracks over 40 different TV shows and helps you track down any of the 5,000 restaurants featured on TV.

Next time you're planning a road trip, you can use TVFoodMaps to find all the famous TV restaurants along the way. You can also use your current location to find any nearby featured eateries.

TVFoodMaps is free but there's also a premium version with more perks like unlimited daily searches and automatic personalized alerts.

Yelp is a great online resource for reviews of hotels, restaurants, pubs, shops, and even hair salons. The app is beneficial not only to read reviews, but also for photos, hours, location, and menus.

You can make appointments or reservations from the app and order food too.

Detour is an app that gives you guided audio tours of famous landmarks and tourist spots around the world. By using your phone's GPS and location tracking features, Detour will sync with your location and provide you with voice-overs for the landmarks around you. It's like having your very own local tour guide who walks with you at your own pace!

It's not available in every city, so check to see if you're headed to a featured city.

Other apps worth checking out are TripCase, FlightAware, GasBuddy, and iExit.
