GRAND GIVEAWAY & FACEBOOK PROMOTION

Congratulations to Amber and Nathan Huff who won 3 - 10 ticket flex packs for the Hub City Hotshots in our Grand Giveaway!

Wondering how to register? No problem, because there's no purchase or registration, just winners! Each month we

will randomly select one of our "grand" residential customers to win. Maybe our next winner will be you!

Isis Vega was the winner of our Spring Fever Internet Promotion. She won 2 Season Tickets to the Hub City Hotshots. Thank you to everyone who participated!

Amber and Isis are both pictured with CSR Miranda Telin.

SPECIAL ANNOUNCEMENTS

The NVC offices will be closed Wednesday, July 4. Happy 4th of July!

UPGRADE YOUR TV EXPERIENCE

If you're one of the few who haven't upgraded yet, now is the time to make the switch to our new and improved TV service!

As the industry continues to change, we are committed to providing you, our customers, with exceptional products at a very competitive price.

Our interactive guide has been updated and improved, along with our DVR capabilities. You can now get Cloud DVR on all TVs. Start watching a recorded program in one room and resume watching it in another! You also can record up to 10 shows at one time. All of this for only \$17/month.

As your recordings are saved to the "cloud" and not your set top box, you never have to worry about losing them! You will have 250GB of storage and can upgrade in \$5 increments.

Also, Cloud DVR customers will receive HD service on all TVs at no additional cost! If you are an HD only customer you can still do that for only \$11/month and get HD on all your TVs!

While we understand that learning how to use a new product is not

always easy, we are confident that the quality and improvements in our TV product will be well worth it. Most of the TV features will continue to work as they have in the past with several enhancements like Restart TV.

Restart TV gives you the ability to restart a program that is already in progress. If you are browsing channels and find a show you wanted to watch that has already begun, restart it and watch from the beginning. Restart Channels are highlighted by the green and white Restart icon in the Program Guide.

ManageMyTV is just another way you can manage your DVR remotely using your PC or mobile device (for no additional charge)!

You can go to mytv.nvc.net or download the app at Google Play or the App Store. Call us to establish your login credentials if you don't already have them.

The new guide and Cloud DVR is just one way that NVC is committed to delivering the best service to our customers. Please call us to talk about upgrading your current platform as it will soon be obsolete.

A vertical image showing a person's hands holding a smartphone. The background is a soft-focus outdoor scene with warm lighting. Overlaid on the bottom right of the image is a large yellow circle containing the text 'Only \$89.95 / month'. Below the circle, the text 'UNLIMITED DATA' is written in large, bold, white capital letters. At the bottom of the image, a dark grey box contains the text 'Visit NVC.net' in white.

CALL 811 BEFORE YOU DIG

Summer construction season is upon us, so remember to call SD One-Call before doing any digging for construction or home improvement projects. SD One-Call will help determine if there are any buried utility lines in your yard. The call is

free and there is no charge for the utilities to locate their facilities. By calling SD One-Call at least 48 hours before you dig, you can avoid costly bills that may be charged to you if facilities are cut. Calls to SD One-Call are answered 24 hours a day.

Below is the information you will need to have on hand when you call.

South Dakota One-Call - 811

Required Ticket Information

Excavator (Company or Homeowner) _____

WHEN THUNDER ROARS, GO INDOORS

According to lightningsafety.noaa.gov/, each year in the United States more than 400 people are struck by lightning. On average, between 55 and 60 people are killed; hundreds of others suffer permanent neurological disabilities. Most of these tragedies can be avoided with a few simple precautions. When thunderstorms threaten, get to a safe place. Lightning safety is an inconvenience that can save your life.

In addition to protecting yourself by staying inside during storms, it is also imperative to protect your equipment from lightning strikes. Computers, monitors, routers, printers, televisions, electronic telephones, cable TV boxes, and any other electronic items made with delicate components are potentially

in danger.

Lightning can enter your home through three paths: 1) Electrical wiring from power lines that feed your house, 2) Data wiring used for telephone, DSL, and cable services, 3) Directly through the atmosphere.

While there are no guarantees, there are steps you can take to minimize the chance of your equipment being damaged during a storm. All equipment should have adequate, high-quality surge suppression and/or battery backup power to protect from damage caused by a potential lightning surge. However, the best guarantee for protecting your equipment is to simply unplug it before severe storms arrive. If you will be away from home during the thunderstorm season, unplug your equipment before you leave.

For more information about lightning

and its potentially harmful effects, visit these websites: lightningsafety.com, and lightningsafety.noaa.gov/.

Hub City Radio Mobile Alerts are a great way to get weather updates via text message. You can get alerts by county as well as a daily forecast. Visit hubcityradio.com to sign up.

You can also download various weather apps including KELO, KDLT, KSFY and The Weather Channel at Google Play or in the APP Store.
