INCREASE YOUR CLOUD DVR STORAGE

Are you running low on Cloud DVR storage and at risk of losing your favorite recorded shows?

To find out, simply press the LIST button found under the POWER button on your remote. A green status bar representing the percentage of storage available will appear at the top of your screen. In the image to the right you can see this user has only 3% free.

There's an easy fix to ensure you never

lose your favorite game or cartoon your child loves.

Your storage can be increased with just a few clicks from us. In most cases, we can double your storage for just \$5 more per month. **Call now and 2 months of additional storage is FREE!**

CHANNELS NOW AVAILABLE

We recently added the below Standard and High Definition channels to our lineup.

Expanded View

141 Crime & Investigation

142 Military History

HD

663 Crime & Investigation HD

701 Cinemax HD

702 HBO HD

703 HBO2 HD

To add Cloud DVR with FREE HD call us today!

GRAND GIVEAWAY

Congratulations to Mike & Nancy Schumacher who won a Fitbit Versa Smartwatch in our Grand Giveaway! Mike is pictured with sales representative Brent Hanson.

Wondering how to register? No problem, because there's no purchase or registration, just winners! Each month we will randomly select one of our "grand" residential customers to win. Maybe our next winner will be you!

THANK YOU APD

In honor of National Law Enforcement Appreciation Day we delivered donuts to the Aberdeen Police Department. Thank you APD, for the work you do and the sacrifices you make for our community!

NVC Phone Systems Manager Barb Stugelmayer is pictured with Officer Jarrod Zaruba (left) and Sgt. Tony Bisbee (right).

CUSTOMER LOYALTY DISCOUNT

We're so thankful for our long-time customers and want to thank you for your years of continued business. If you've been a customer for 5 years

or more, you may be eligible for our customer loyalty discount of 10% off all your monthly recurring services!

Contact us to hear more about our loyalty discount.

Discount for residential customers only, restrictions apply.

REFER A FRIEND

Looking for some easy money? Just refer a friend to NVC and you get a \$100 credit on your next bill!

Your friend will get their first month

free and you get the \$100 credit. Make sure to tell them to give your name.

That's \$100 you have to spend somewhere else. So get out there and tell your friends about NVC!

CYBER SECURITY

The need for security, file backup, data management and technical support has never been greater. Industry analysts forecast that there will be an average of 12 connected devices in U.S. households by the year 2020. NVC can help keep you protected.

Tools such as Tech Home Protect, Tech Home Protect Plus, and SecureIT are available to NVC customers to make sure your online data is safe.

You can now try Protect or Protect Plus FREE for two months!

You can also get in touch with us online with our live chat button. Go to nvc.net, and you'll see this popup. Click on it and one of our experts will be ready to answer your questions about your NVC services.

NVC MANAGED WIFI

As today's technology continues to advance, almost every device in your home needs a solid Internet connection: computers, smart phones, tablets, TVs, and products like doorbells, lights, and security systems. Many people confuse the Internet and WiFi for good reason. The words are often used interchangeably.

The Internet is connected networks all over the world. WiFi is your personal wireless network within your home. A wireless connection is made possible using WiFi technology; specifically, by another device in your home called a router or gateway.

An older router is one potential cause of WiFi issues. WiFi

technology has improved a lot recently, so if your router is a few years old, it won't work nearly as well as a new one.

If your router itself is not the problem, its location might be. For you to enjoy the best possible online experience, your router needs to be able to send out a strong signal to your wireless device. In general, the signal gets weaker the farther you are from it. If possible, you should place the WiFi router on a table or a shelf. The ideal position is half-way between the floor and the ceiling.

The easiest way to get a strong WiFi signal throughout your home, and even in your yard, is by creating a bigger WiFi network.

If you are frustrated by the WiFi coverage in your home, there is an

exciting new alternative available. Called a Mesh WiFi network, this new technology combines a WiFi router with one or more satellites, which are small wireless devices you place in different rooms.

These satellites communicate with the router and provide you with a strong WiFi signal everywhere in your home; even in your backyard.

We can help ensure your WiFi is up to speed and let you know if a Mesh WiFi router would increase your signal.

Call us today to find out more and to receive your first 2 months of Managed WiFi service FREE!
