Aberdeen Area Humane Society Sponsored Pet

As of printing, our December Aberdeen Area Humane Society sponsored pets, Toby and Heidi, were still available for adoption. They are a bonded pair of kitties who had to be surrendered to the AAHS as their owner moved into a nursing home. Toby is 14 years old and Heidi is 3. If they were adopted together before the end of the December, \$500 would be donated to the Aberdeen Area Humane Society (JVT/NVC \$250 and an anonymous donor \$250).

You can find out more about available pets at anewleashonlife.net or call the AAHS at 605-226-1200 to schedule a time to visit. Watch our Facebook page for our monthly sponsored pet.

National Do-Not-Call Registry

The federal government created the National Do-Not-Call Registry to make it easier and more efficient for you to stop getting most telemarketing sales calls you don't want. You can register online at www.donotcall.gov, if you have an active email address; or you can call toll-free 1-888-382-1222 (TTY 1-866-290-4236) from the number you wish to register.

Registration is free and will not expire. Your phone number, when placed on the Do-Not-Call Registry, will remain there

permanently. If you would like to remove your number from this list, you must call 1-888-382-1222 from the number you wish to delete.

If you receive telemarketing calls after you have registered your telephone number and it has been on the registry for 31 days, you can file a complaint at www.donotcall.gov or by calling 1-888-382-1222 (TTY 1-866-290-4236). You will have to know the company's name or phone number to file a "do-not-call" complaint.

JVT/NVC Cell Network Upgrade

If you have cell phone services with JVT/NVC and your phone or SIM card needs to be swapped out, you have already been contacted via phone call or text message. If you have been contacted and not stopped in yet – please do so! If your phone is up to date the process should only take a few minutes! To make sure your phone is up to date you can browse to settings on your phone and select Software Update. Click on Download and install. It should say your software is up to date.

Benefits of upgrading to VoLTE include:

- Better in network coverage – We have replaced four cell sites with brand new towers and added two additional towers to fill in coverage gaps.

- Better out of network coverage – CDMA voice roaming will not exist at the end of the year, upgrading will allow for voice calls to work when roaming.

- Faster call connection – Voice over the LTE network allows for faster call connections and text message delivery.

- Improved voice quality – We have added new and improved HD voice codecs and unified all voice services with VoLTE technology.

- Ability to use GPS while on a call – VoLTE allows for simultaneous voice and data connections.
